I got the blues baby, every night and every day
I got the blues baby, ever since you went away
I got the blues baby, pretty sure they’re here to stay

Da da da da… or [solo instrument or both]

I got the blues baby, it's the price I have to pay
I got the blues baby, cause I let you get away
I got the blues baby, pretty sure they’re here to stay

Do do do do… or [solo instrument or both]

I got the blues baby, what else can I say?
I got the blues baby, cause you’re not here today
I got the blues baby, pretty sure they’re here to stay

Dee dee dee dee… or [solo instrument or both]

I got the blues baby, every night and every day
I got the blues baby, ever since you went away
I got the blues baby, pretty sure they’re here stay
